

TANZANIA

WASTE

DIRECTORY

Your Trash Friend

ABOUT THE DIRECTORY

Key to the directory

We hope you will find this directory a useful guide to find a future use or home for some of your trash.

Dar es salaam

this icon signifies all organizations or companies that are based in Dar-es-salaam. You will find this icon displayed on each companies page in the top right corner.

Arusha

this icon signifies all organizations or companies that are based in Arusha. You will find this icon displayed on each companies page in the top right corner.

Plastics bags and hard plastic

this icon represents companies that purchase plastics, these are generally hard plastics or plastic bags, please see company description for the type of plastics and the preparation require before.

Glass

primarily glass bottles, ideally sorted into colours.

Plastic bottles

these are you standard plastic water bottle.

Metals

all sorts of metals are included, brass, aluminum and cast iron.

Each box or section in the directory separates each company or organization, we have tried to collect the current information and included contact details, information on the preparation of the waste and what the organization or company does with this waste. If there are any inaccuracies, please let us know and we will update this directory.

If you find any additional information that should be included in this directory, please send us an email at: info@honeyguide.org

THE TOURISM INDUSTRY IN TANZANIA DISCARD ABOUT 25,000 PLASTIC WATER BOTTLES PER DAY!

Our mission at Honeyguide is to protect Tanzania's natural heritage and landscape. In a diverse and beautiful country where tourism plays an important economic role, we believe it is necessary to care for the environment and provide economic empowerment opportunities for the local peoples.

At Honeyguide we strive to link local communities with the tourism industry in order to catalyze economic opportunities and Responsible Tourism practices. In order to advance our mission, Honeyguide is committed to strengthening:

- Improved and transparent community governance
- Sustainable management of natural resources
- Corporate Social Responsibility and Philanthropic strategies

Both the tourism industry and local communities share a vested interest in protecting Tanzania's landscapes and natural resources. At the Honeyguide Foundation we bridge these two entities because we believe, when properly combined, the tourism industry and local communities can unite to achieve concrete developmental and environmental progress.

Comments:

Jean Paulo would like to see more control by the Municipal Council at the dump, because most of his raw materials are burnt there unnecessarily.

He would like to find a machine that would recycle plastic bags to enable him to produce recycled plastic buckets etc.

He would like to find someone to assist him in finding a market for his plastic waste products abroad.
